Sharing

BEST PRACTICE

The UK’s leading wound care event – keeping you up to date with advances in your field

This conference is aimed at:
- Tissue viability nurses
- Nurse consultants
- Nurse practitioners
- Physicians
- Podiatrists
- Community nurses
- Lymphoedema specialists

www.wounds-uk.com
The theme for this year’s event is ‘sharing best practice’ and we have developed a programme that reflects the excellent clinical and practical work that takes place every day around the UK.

Sessions will include presentations from the national and regional tissue viability groups, interspersed with a variety of clinical, practical and policy reviews. Our aim is to ensure that delegates to Wounds UK receive an unrivalled update in these important areas and if you can only visit one event this year, Wounds UK Harrogate is not the one to miss.

We are also pleased to announce that the Foot in Diabetes UK Conference will again run alongside Wounds UK with a separate programme (Tuesday only) and this will further increase the range of content available to delegates.

We work to keep this event moving forward and look to improve visitor experience year on year. New in 2012 will be the introduction of CPD workbooks which will allow you to maximise your learning outcomes from the event and earn CPD through your attendance.

Additionally, to further enhance the sharing of best practice theme, the annual Wounds UK Awards will take place within the main programme, with winners detailing their work at the conference. The inclusion of the awards at Harrogate will, for the first time, provide a real opportunity to highlight the great work and innovation that takes place in everyday practice, at the biggest wound care event in the UK calendar.

Finally, we will also be introducing a number of our popular and interactive ‘Made Easy’ sessions, which keep busy practitioners up to date with the latest evidence and practice, as well as the appropriate use of products.

I hope that you will be able to join us again this year, either as a regular or first-time visitor. We look forward to this being our best conference yet and I can promise that the event will deliver all you expect from it.

Rob Yates
Publishing Director, Wounds UK
Monday 12 November

11.30 - 12.30 Registration

12.30 - 12.45 Welcome and introduction

Jacqui Fletcher, Principal Lecturer University of Hertfordshire, NICE Fellow
Karen Ousey, Reader in Advancing Clinical Practice, Department of Health Sciences, University of Huddersfield

12.45 - 13.15 Keynote: The role of innovation in the delivery of healthcare

George Leahy, Deputy Director, Innovation Policy Team, Department of Health
Innovation, Health and Wealth
► Setting the scene
► Government strategy for improving outcomes for patients in England
► Working with industry and innovative ways of working across the NHS
Keith Harding, Director, Institute for Translation, Innovation, Methodology and Engagement (TIME), School of Medicine, Cardiff University
Innovation in Wounds in Wales
► Setting the scene
► How Welsh policy differs
► What does innovation mean for wound care in Wales?

13.15 - 14.00 Innovations in treating venous leg ulcers
Supported by BSN medical

Speakers TBC
► The benefits to patients of using compression hosiery systems vs. multi-layer bandaging in conjunction with good wound care when treating venous leg ulcers.
► Supporting evidence from a multi-centre European study will be presented.

14.00 - 14.45 Getting the best from SSKIN bundles

Fiona Downie, Nurse Consultant Tissue Viability, Papworth Hospital NHS Foundation Trust
Martin Kiernan, Nurse Consultant, Southport and Ormskirk Hospital NHS Trust
► Prevention of pressure ulcers is a high priority in all care settings
► Adopting SSKIN bundles to drive evidence and best practice
► Providing a consistent approach to pressure ulcer prevention

14.00 - 14.45 Made Easy Workshop

Benefits of using portable NPWT
Supported by Smith & Nephew
► Protecting high-risk patients undergoing surgical procedures
► How to kick start chronic wounds into a normal healing trajectory

14.45 - 15.15 Refreshments

15.15 - 16.00 Meeting the current challenges in leg ulcer services
Supported by medi UK Ltd

Caroline Dowsett, Nurse Consultant Tissue Viability, East London NHS Foundation Trust
► Audit tools
► Fulfilment of the QIPP agenda
► Audit application for Any Qualified Provider (AQP)
Speaker TBC
Realising the benefits for patients using a case study approach

16.00 - 16.45 Challenging situations

Self-inflicted wounds
Anita Kilroy-Findley, Tissue Viability Nurse Mental Health, Leicestershire Partnership NHS Trust
► Balancing the physical management of wounds with the patient’s emotional reaction
► Practical challenges and complications
► Understanding professional challenges

Epidermolysis bullosa (EB)
Liz Pillay, EB Nurse Consultant (Adult), St John’s Institute of Dermatology, St Thomas’ Hospital, London
► Challenges of managing patients with EB
► Managing patients in under-resourced areas
► The role of international guidelines in supporting clinicians and patients

Post-traumatic injury
Claire Stephens, Complex Wound Manager, Woundcare4Heroes
► Continuity of care following MOD discharge
► Long-term psychological impact of military wounds
► Rationale and aims of WoundCare4Heroes

16.00 - 16.45 Made Easy Workshop

Preventing pressure ulcers: a care plan
Supported by Smith & Nephew
► Implementing a pressure ulcer prevention strategy
► What does a prevention care pathway look like?
► Cost-effective, simple-to-use products that make a real difference in reducing the number of pressure ulcers

16.45 - 17.30 Wound diagnostics: EPA when and where, can you afford to ignore it?
Supported by Systagenix
Speaker TBC
► Clinical experiences with the world’s first point of care protease test for wounds
► What types of wounds are affected by EPA (elevated protease activity)?
► What is the economic impact?

17.30 - 19.30 Exhibition opening and Champagne reception
Supported by ArjoHuntleigh

18.00 - 18.45 Techniques for managing chronic biofilm-infected wounds and the role of molecular diagnostics

Keith F Cutting, Director, Perfectus Medical Limited
Samantha Westgate, Consultant Scientist, Perfectus Medical Limited
► Biofilms in chronic wounds
► Exploring biofilm management options
► The role of molecular techniques in microbial diagnostics

Programme subject to change
Please check online at www.wounds-uk.com/events for the latest programme details.

| **08.15 - 09.00** | **Care of the older person’s skin:**  
  Best practice statement update  
  Supported by 3M Healthcare  
  **Chair:** Richard White, Professor of Tissue Viability, University of Worcester and member of the expert working panel  
  **Janice Bianchi,** Honorary Lecturer, University of Glasgow  
  **Rosie Callaghan,** Tissue Viability Specialist Nurse, Worcestershire PCT  
  ▶ Highlighting the background to the updated best practice statement  
  ▶ What’s new and key points for practice  
  ▶ Focus on prevention of skin breakdown in the older patient through appropriate skin care strategies |
| **09.00 - 09.45** | **Sharing best practice – national groups**  
  **All Wales Tissue Viability Nurse Forum**  
  **Julie Evans,** Tissue Viability Nurse, Abertawe Bro Morganwg University NHS Trust, Swansea  
  ▶ All Wales pressure ulcer reporting and safeguarding the vulnerable adult  
  ▶ Accredited All Wales Tissue Viability Competency including Band 4 role  
  ▶ Best practice statement  
  ▶ Hyperkeratosis  
  ▶ Larval therapy  
  **Northern Health and Social Care Trust, Northern Ireland**  
  **Rosina McSwiggan,** TVN Co-ordinator, North Health and Social Care Trust, Northern Ireland  
  **Scotland**  
  **Speaker TBC**  
  **09.00 - 09.45** | **Made Easy Workshop:** Microcurrent technology for hard-to-heal wounds  
  Supported by Medicareplus International  
  ▶ Understanding microcurrent technology  
  ▶ When to use  
  ▶ Practical tips for application  
  **Speaker TBC**  
  **09.45 - 10.30** | **New patient-focused foam dressing**  
  Supported by Convatec  
  Foam dressings are under increasing scrutiny with regard to cost and performance. Hear how the latest evolution in foams can deliver:  
  ▶ Safety: Scientific data to support effective fluid management in wound care  
  ▶ Effectiveness: Clinical outcomes and health economics  
  ▶ Experience: The patient’s story |
| **10.30 - 11.00** | **Refreshments, exhibition and poster viewing**  
  **11.00 - 11.45** | **Sharing best practice – regional groups**  
  **West Midlands**  
  **Rebecca Martin,** Lead Nurse, Tissue Viability, Birmingham Community Healthcare Trust  
  **Rebecca Boden,** Lead Nurse, University of North Staffordshire NHS Trust  
  **Think SSKIN**  
  ▶ Patient and carer campaign to improve communication in the community and reduce pressure ulcers  
  ▶ Encouraging patients and carers to ‘tell us’ if there are any problems, to initiate brief interventions and take a proactive approach to pressure ulcer prevention  
  **NHS Midlands and East**  
  Meeting NHS Midlands and East’s ambition to eliminate category 2, 3 and 4 avoidable pressure ulcers by December 2012  
  Establishing an expert working group to develop the Pressure Ulcer Path  
  **11.45 - 12.30** | **Using new innovation to improve wound assessment and debridement – scientific, clinical and strategic perspectives**  
  Supported by Activa Healthcare  
  **Chair:** Trudie Young  
  **The scientist’s view from the lab**  
  **Samantha Westgate,** Consultant Scientist, Perfectus Medical Limited  
  ▶ Removal of biofilms is a challenging area where pathogens may not always be evident  
  ▶ Microscopic images will show the removal of cultured biofilms using Debrisoft® in laboratory tests  
  **The nurse’s perspective**  
  **Rosie Callaghan,** Tissue Viability Specialist Nurse Nursing Homes, Worcestershire PCT  
  ▶ Demonstrating how effective debridement can assist in the assessment of pressure ulcers  
  ▶ Presenting the results of a 38-patient audit  
  **The surgeon’s perspective**  
  **Ingo Staffels,** Department of Dermatology, Venereology and Allergology, University of Essen-Duisburg, Germany  
  ▶ The relevance of appropriate debridement as part of the diagnostic process of acute wounds  
  ▶ Raising awareness of accurate assessment to improve effective subsequent treatment  
  **The strategic perspective and the way forward**  
  **Sian Fumarola,** Clinical Nurse Specialist in Tissue Viability, North Stafts NHS Trust  
  ▶ The future of tissue viability within the requirements to deliver measurable, significant and cost-effective outcomes in the new NHS  
  **12.30 - 13.45** | **Lunch, exhibition and poster viewing**  
  **Limited to 40 places**  
  **Tuesday 13 November**
13.45 - 14.30 Reducing the human and economic cost of wounds: the impact of wellbeing and concordance
Supported by Smith & Nephew

Speakers TBC
This session will provide an update on a global consensus document and will discuss:
▶ What is wellbeing in the context of woundcare?
▶ How clinicians, patients, organisations and industry can work together to promote patient wellbeing and ensure the concept becomes integrated and practical
▶ The connection between wellbeing, improved health outcomes and reduced cost
▶ The relevance of patient-centred research for wellbeing

14.30 - 15.15 The future of wound care education

Guest Speaker
▶ Grounding wound care education in sound educational theory
▶ Meeting the challenges of providing education that is motivational and makes a difference to practice
▶ Making education more impactful using the patient voice

14.30 - 15.15 Made Easy Workshop
Preventing pressure ulcers: A care plan
Supported by Smith & Nephew
▶ Implementing a pressure ulcer prevention strategy
▶ What does a prevention care pathway look like?
▶ Cost-effective, simple-to-use products that make a real difference in reducing the number of pressure ulcers

15.15 - 15.45 Refreshments, exhibition and poster viewing

15.45 - 16.30 X-Factor Part 2: Relative clinical and cost-effectiveness of alternative superabsorbents for the management of venous leg ulcers in the UK
Supported by Sorbion

Panel: David Leaper, Emeritus Professor of Surgery, University of Newcastle upon Tyne; Visiting Professor, Imperial College, London and Cardiff University
Julian Guest, Visiting Professor of Health Economics, School of Biomedical Sciences, King's College, London; Director, Catalyst Health Economics Consultant, Northwood, Middlesex
▶ First ever study characterising the use of different superabsorbents in the management of venous leg ulcers, based on a cohort of 439 patients managed in actual clinical practice

16.30 - 17.15 Wounds UK Awards 2012

Chronic oedema and compression therapy:
Sponsored by Actico, a trademark of Activa Healthcare
Cost-effective management in wound healing:
Sponsored by HARTMANN
Good practice in pressure ulcer care:
Sponsored by Talley Group
Hard-to-heal wounds:
Sponsored by Tissue Therapies
Pain and trauma:
Sponsored by SafeTec Technology, a trademark of Mölnlycke Health Care
Patient wellbeing:
Sponsored by Smith & Nephew

19.00 - 20.00 Pre-dinner Champagne reception
Supported by Urgo Medical

20.00 - 23.30 Wounds UK gala dinner

10.15 - 11.00 Antimicrobial innovations in biofilm-based wound care
Supported by Schülke

Keith F Cutting, Director, Perfectus Medical Limited
▶ Understanding the challenge of managing biofilm wound infections
Samantha Westgate, Consultant Scientist, Perfectus Medical Limited
▶ Comparative in vitro data demonstrating the ability of wound antimicrobial solutions to prevent biofilm formation
Michael Braun, Manager Medical Affairs, Schülke & Mayr GmbH
▶ The effectiveness of octenidine-based products in clinical practice

11.45 - 12.30 Making research real – testing ‘what works’

Karen Ousey, Reader in Advancing Clinical Practice, Department of Health Sciences, University of Huddersfield
Ross Atkinson, Spinal Research Coordinator, Greater Manchester Neuroscience Centre, Honorary Research Associate, School of Biomedicine, University of Manchester
▶ Do clinical practitioners need to engage in research?
▶ Working collaboratively to investigate real world research
▶ Making a difference to clinical practice using research

12.30 – 13.15 Made Easy Workshop
Microcurrent technology for hard-to-heal wounds
Supported by Medicareplus International
▶ Understanding microcurrent technology
▶ When to use
▶ Practical tips for application

13.15 – 14.00 Electronic patient records in wound care

Linda Mussel, Clinical Advisor, NHS Connecting for Health
▶ Working towards the provision of a standardised central NHS record
▶ Using the EPR to provide a framework for local policies and procedures
▶ Making it easier to transfer information between care settings

14.00 – 14.15 Conference close
Delegate booking form

Online booking available at www.wounds-uk.com/events.php

Personal details

Please fill in your name, job title and place of work as you would like them to appear on the delegate list. Please use block capitals. (If you wish to book more than one place, please photocopy this form or write other names on a separate sheet.)
